DIGITALIZATION OF THE LEGAL PROCESS

LegalTech platforms allow debt claims to be initiated and managed entirely online, from sending demands to filing legal claims, reducing time and costs.

AUTOMATION AND EFFICIENCY

Tools based on artificial intelligence and document automation speed up the drafting of legal documents, the monitoring of unpaid debts, and strategic decision-making.

ACCESSIBILITY AND TRANSPARENCY

Anyone or any business can access claim services without needing advanced legal knowledge, with real-time tracking and clear pricing.

ALTERNATIVE DISPUTE RESOLUTION

Online mediation platforms and smart contracts enable dispute resolution without going to court, promoting faster and less expensive agreements.
