ALGORITHMIC TRANSPARENCY AND EXPLAINABILITY

It is essential that AI systems are understandable to citizens. Automated decisions must be auditable and explainable, especially when they affect fundamental rights.

ACCOUNTABILITY AND INDEPENDENT OVERSIGHT

There must be legal and technical mechanisms to identify responsibilities when AI causes harm or discrimination, including supervisory bodies with real authority.

PROTECTION OF PRIVACY AND DIGITAL RIGHTS

The collection and use of personal data by AI systems must be strictly regulated to prevent abuse, mass surveillance, and loss of individual freedoms.

CITIZEN PARTICIPATION AND DIGITAL LITERACY

Society must be involved in the debate on the ethical use of AI. Promoting digital education and critical thinking is key to a resilient democracy in the technological era.
