THE TRUE LEGACY

THE INVISIBLE COST OF A JUDICIAL VICTORY

💬 In the realm of successions, we often remind our clients of a fundamental maxim: in a lawsuit over the division of an inheritance between siblings, there are rarely true winners. Even when a judge issues a ruling that grants us absolute financial vindication, the price paid is usually the irreversible destruction of the family fabric.

MCHM LAWYERS

💬The true success of our team at **MCHM Abogados** is not measured solely by the favorable rulings won in court, but by the number of times we manage to prevent you from ever having to step foot in one. Mediation demands empathy, smart concessions, and above all, the ability to separate emotional pain from financial distribution. When we help families reach an out-of-court settlement, we are not just safeguarding the bricks and mortar or the bank accounts that make up the estate; we are helping to preserve the most important legacy your parents wished to leave you: family harmony. We encourage you to always seek guided dialogue before judicial confrontation.
