MCHM LAWYERS

AI IS AN EXCELLENT "ASSISTANT" BUT A TERRIBLE "JUDGE."

💬 AI is an excellent "assistant" but a terrible "judge." The ability to process millions of data points in seconds does not replace critical judgment, the interpretation of human nuances, or the procedural strategy that only an experienced lawyer can provide. The challenge in 2026 is balance: using AI for mechanical tasks while dedicating human talent to the passionate defense of our clients´ rights.
