THE INSURANCE CONTRACT

The insurance contract is a legal and financial tool that protects individuals and businesses against specific risks, in exchange for the payment of a premium.

TYPES

There are various types of insurance —life, health, auto, home, travel, civil liability—, each designed to cover particular needs.

ENVIRONMENT

Choosing the right insurance requires personal analysis, considering factors such as family situation, professional activity, assets to protect, and financial capacity.

APPRECIATION

Reading and understanding the policy is essential: knowing the coverage, exclusions, and conditions prevents misunderstandings and ensures effective protection.
