LEGAL ADMISSIBILITY

Emails, WhatsApp messages and recordings are admissible as evidence in court, provided that their acquisition is lawful and their authenticity and integrity are guaranteed.

RELATIVE EVIDENTIARY VALUE

These means usually have indicative value, meaning they do not constitute full proof on their own, but may be essential if presented together with other corroborating elements (witnesses, expert reports, supplementary documents).

TECHNICAL AUTHENTICATION

To reinforce their effectiveness, it is advisable to accompany the evidence with computer forensic examinations certifying authorship, lack of content alteration and traceability of origin.

RESPECT FOR PRIVACY

The presentation of private communications (such as WhatsApp messages or recordings) must respect the right to privacy. They are only valid if the person presenting them participated in the conversation or has the consent of the parties involved.
